A Clinically Proven Formulation That Is Tested & Backed By Science

#### Hyaluronic Acid

A sugar found naturally in our skin, it is a powerful hydrating compound that helps alleviate dry skin.

#### Fructooligosaccharides & Beet Root Extract Complex

Increases the activity of Vitamin D receptors, providing short-term and long-term high level hydration.

#### Reed & Mushroom Extract Complex

A robust anti-inflammatory complex that provides a natural soothing effect, reduces redness, alleviates irritation and itching and helps return skin to its natural balance.

#### Willowherb Extract

Native American multi-functional extract that provides fast relief of skin irritations. It provides soothing, fast-relief of skin irritation, reduces redness and improves acne-prone skin by decreasing acne-causing bacteria.

#### Tasmanian Pepper Extract

Helps protect and calm reactive skin. Provides immediate soothing relief of itching and burning skin and decreases inflammation from external aggressions.
